

Memorandum

Date: October 27, 2015

To: All DWR Employees

From: **Department of Water Resources**

Subject: Laura King Moon

It is with deep personal sorrow that I notify you of the death of Laura King Moon. Laura passed away this morning after a courageous battle with cancer. Laura served as Chief Deputy Director for the Department of Water Resources since September 2013. While Laura was only with the Department for a small part of her extensive career in resources management, all who worked with her will remember her as an energetic, enthusiastic, and staunch supporter of the Department's mission. She was always willing to listen and to provide wise counsel. I will remember her for and miss her support, her encouragement, and her friendship.
