Re-Notice of Temporary Permit Application T033279

Aliso Water District (Applicant) has filed an application to appropriate water by permit with the State Water Resources Control Board (State Water Board), Division of Water Rights (Division), pursuant to Water Code section 1425 et seq. The project associated with the application is located in Madera County and would divert water from the Chowchilla Bypass, tributary to the San Joaquin River. Any correspondence directed to the Applicant should be mailed to: Joe Hopkins, Provost and Pritchard Consulting Group, 455 W. Fir Ave, Clovis, CA 93611 or emailed to Jhopkins@ppeng.com.

This is a re-notice of the application. If you submitted objections on the previous application notice dated February 10, 2022, you are not be required to resubmit as all previous objections will continue to be considered as part of the permitting process.

Summary of Temporary Permit Application T033279

Date of Filing:

The application was filed with the State Water Board on February 2, 2022.

Source of Water:

The source of water is the Chowchilla Bypass, which is tributary to the San Joaquin River.

Amount:

The maximum amount of water requested for diversion is 10,000 acre-feet per year. This amount is inclusive of water potentially directly diverted for incidental irrigation as a results of on-farm recharge practices. The rate of diversion is 100 cubic feet per second.

Season of Diversion:

The season for diversion of water is from January 1 to June 29, 2022.

Points of Diversion:

Surface flow would be diverted at a total of 7 points of diversion located along the Chowchilla Bypass, all within Sections 2, 14, 22, 24, and 34, Townships 12 and 13 South, Range 15 East, Mount Diablo Base and Meridian.

Purpose of Use:

The purpose of use for water is irrigation.

E. JOAQUIN ESQUIVEL, CHAIR | EILEEN SOBECK, EXECUTIVE DIRECTOR

Place of Use:

The place of use for water consists of 26,042 acres of agricultural lands within the Applicant's service area as shown on the map filed with the State Water Board.

Location and Type of Infiltration:

Infiltration would occur on up to 26,042 acres of agricultural lands within the District's service area. Water will be diverted from the bypass and conveyed through existing culverts and non-permanent pumping stations. The water will be spread onto fields of crops and small berms will be used to contain the water as needed. Diverted water will be stored in the shallow aquifer.

Operations and Accounting:

Water stored underground would be extracted by overlying permitted private wells for irrigation use within the Applicant's service area during the 2022 irrigation season. The Applicant intends to ensure that all water diverted and stored under any temporary permit issued pursuant to T033279 is extracted by users onto agricultural lands within the place of use during the 2022 irrigation season, prior to extraction of other types of underground water. Flow meters at the diversion points will measure the amount of water diverted to storage and amount of water extracted from the aquifer for beneficial use, will be measured using flow meters or known pumping rates and duration of pumping operation.

Procedure for Submitting Objections

Pursuant to Water Code section 1330, any interested person may file an objection to the temporary diversion and use of water, with copy to the Applicant. Objections must be received by the Division of Water Rights by **4:30 p.m. on April 18, 2022.**

Objections may be emailed to Shelby Witherby at Shelby.Witherby@waterboards.ca.gov or mailed to: State Water Resources Control Board, Division of Water Rights, Attn: Shelby Witherby, P.O. Box 2000, Sacramento, CA 95812-2000.

Pursuant to Water Code section 1428, the State Water Board may issue a temporary permit in advance of public notice. Consequently, a temporary permit may be issued on the application before the end of the noticing period.
